

**HUNTERS POINT NAVAL SHIPYARD
BASE REALIGNMENT AND CLOSURE CLEANUP TEAM
MEETING NOTES
February 7, 2019**

These notes summarize the Navy Base Realignment and Closure (BRAC) Cleanup Team (BCT) meeting for Hunters Point Naval Shipyard (HPNS) in San Francisco, California. The meeting was held on February 7, 2019 via teleconference.

I. Introductions and Agenda Review

Mr. Derek Robinson (Navy) conducted introductions and reviewed the action items from the December 13, 2018 BCT meeting. Due to the government shut down the January BCT meeting that was scheduled for January 10, 2019 was not held.

II. Federal Facilities Agreement Update (Paul Stoick, Navy)

Ms. Amy Brownell (City of San Francisco) asked if the BCT could discuss the recently released Federal Facilities Agreement (FFA) update for HPNS. Ms. Brownell asked about the fieldwork assumptions that had been built into the schedule for the radiological retesting. Mr. Paul Stoick (Navy) noted that the FFA fieldwork schedule for the retesting is based on the durations outlined in the work plan. The schedule does not take into consideration if additional remediation is warranted following the sampling associated with the retesting.

Mr. Derek Robinson (Navy) noted that Navy upper management is aware of the various timeframes shown in the FFA schedule.

Mr. Stephen Banister (Navy) noted that the Navy is finalizing the radiological background sampling locations in San Bruno, California during the week of February 11. The radiological background data set will be used in conjuncture with the radiological resampling activities. The BCT requested information concerning this meeting so they could participate.

Ms. Tina Low (California Regional Water Quality Control Board [Water Board]) asked about the sampling results at Installation Restoration (IR)-26. Ms. Elizabeth Roddy (Navy) noted that the Navy will hold a meeting with the BCT within the following week and the formal results will be included in the draft Remedial Action Completion Report.

III. Navy Business/Action Items (Derek Robinson, Navy)

All action items were completed. The Navy sent the BCT a summary of the guidance documents discussed by the Navy during the radiological air sampling presentation.

Mr. Robinson (Navy) noted there is a HPNS artist meeting on February 12, 2019. The Navy will give an informal presentation at a local Bay View restaurant. The City of San Francisco and the developer will also be in attendance to help answer artist questions. The Navy will try to schedule a Parcel A homeowner's association (HOA) meeting in March.

Mr. Robinson asked Ms. Brownell (City of San Francisco) for an update from the February 5, 2019 HOA meeting. Ms. Brownell noted that the California Department of Public Health (CDPH) gave details of the radiological scans on Parcel A and answered questions from the homeowners.

IV. Document Tracking/Upcoming Fieldwork (Paul Stoick, Navy)

Mr. Paul Stoick (Navy) noted that the Monitoring Well Installation, Destruction, Repair Work Plan, the Parcel C Removal Action Work Plan for the historical district, and the Parcel E-2 Removal Action Work Plan for the protective liner, wetlands, and landfill gas control system were finalized. Documents currently under BCT review include the Parcel E Remedial Action Work Plans for Phase I and Phase III.

Upcoming fieldwork include Phase III of the Parcel E-2 work which will likely begin in March 2019. Ms. Amy Brownell asked that the Navy to provide a notification before they install the new wells on Parcel UC-2.

V. Miscellaneous Topics/Updates (Derek Robinson, Navy)

Ms. Lily Lee (EPA) noted that Ms. Yolanda Sanchez has joined the EPA's HPNS team and has experience with risk assessments and risk communication. Ms. Lee asked that she be cc'd on emails. Mr. Robinson (Navy) asked if the EPA could provide an outline for the various EPA team members and their responsibilities at HPNS. Ms. Lee noted that Ms. Sanchez will be taking over the community involvement lead from Ms. Jackie Lane (EPA).

Mr. Matt Wright (CDPH) asked about information from the Navy's planned soil sorting system that will be utilized during the radiological rework. Mr. Paul Stoick (Navy) noted that they are working on that and will forward some information when it's finalized.

Ms. Tina Low (Water Board) asked about the Parcel B storm water plan. Mr. Robinson (Navy) noted that the plan will be basewide for all parcels that have swales. The Navy has not yet awarded a contract for the work; however, the Navy does maintenance and cleans the swales on all the parcels on an as needed basis. The Navy will send an update on the storm water management plan to the BCT.

Mr. Robinson (Navy) noted that the Navy has reviewed the agencies' comments on the pending Five-Year Review. Mr. Robinson noted that it's time to finalize the document but there are a few outstanding items. The Navy is recommending that after the data is collected during radiological retesting, it be evaluated against the risk management levels. Ms. Judy Huang (EPA) noted that she would like to have a meeting to discuss changes to the Five-Year Review based on her comments on the document.

VI. Action Items/Future Meetings (Derek Robinson, Navy)

- The Navy will send the BCT meeting information concerning the upcoming background sampling.
- The Navy will set up a meeting with the BCT concerning the sampling results at IR-26.

- The EPA will send the Navy a breakdown of the EPA personnel and their various roles on HPNS.
- The Navy will notify the City of San Francisco and Five Points prior to mobilization to conduct groundwater sampling and drilling on Parcel UC-2.
- The Navy will send the BCT information on the soil sorting system that will be used during the radiological rework.
- The Navy will send an update on the storm water management plan to the BCT.
- The Navy will set up a meeting with the BCT regarding responses to their comments on the Five-Year Review.

Next Meetings:

- The next BCT is scheduled for March 14, 2019 at Jacobs office in San Francisco.

Meeting participants:

Jeff Austin, Geosyntec*

Nina Bacey, DTSC*

Steve Bannister, Navy*

Liz Basinet, Noreas*

Karla Brasaemle, TechLaw*

Amy Brownell, City of San Francisco*

John Chestnut, EPA*

Maeve Clancy, EPA*

Jamie Egan, APTIM

Hamlet Hamparsumian, Noreas*

Daniel Hansen, Five Points*

Leslie Howard, Navy*

Judy Huang, EPA*

Jackie Lane, EPA*

Leo Larson, Navy*

Lily Lee, EPA*

Tina Low, Water Board*

Sharon Ohannessian, Navy*

Chris Ota, Navy*

Liz Roddy, Navy*

Derek Robinson, Navy*

Katie Robinson, Wood*

Yolanda Sanchez, EPA*

Paul Stoick, Navy*

Karen Ueno, EPA*

Matt Wright, CDPH*
